I hear you can hire bands like George Clinton & Parliament Funkadelic or the B-52's for private parties. How do I book them? An event planner for a Fortune 500 firm books meetings here every year and always gets great entertainment. She told me she **finds the acts at bookingentertainment.com**. You simply submit a wish list of performers, the date of your party, and your budget. Within 24 hours, an agent will call with a selection of acts that fit the bill. The cost of booking well-known bands starts at around \$30,000, but you can buffer the cost by booking the band for the day after they play a concert in your area.
